

## ***Glasclean: Transparent Adhesive Protection Film***

Design to protect windows and lighting fixtures inside spray booths

### **Range of application:**

- Protects displays and touchpads
- Keeps panes and lights in spray booth cabins clean

### **Material characteristics:**

- Roll 70cm x 30m
- Adhesive film
- Transparent
- Tough and tear resistant
- Easy to apply
- Easy to remove without glue residues
- Applicable for all smooth and dust free surfaces
- Perfect cutting ability

### **Instructions for use:**

- Apply the foil on the surface to be protected. Make sure the surface is clean, free from dust and grease.
- Press the foil on the surface, unroll the required length and cut accurately with the film cutter.
- Apply the film by using the applicator to avoid blisters and wrinkles.
- The foil can easily be removed and replaced when solid.
- The film is not suitable for long term protection of vulnerable surfaces finishes (eg vehicle transportation).
- Recommendation: change after approx. 4 weeks.

### **Material storage:**

- Material should be stored in a dry, cool and well ventilated room.
- Material should not be exposed to direct sunlight.

Product	Quantity	Part Number
Glasclean	1 roll	321901
Applicator	1 piece	322113
Magnetic cutter	1 piece	320915
